

European Work Council & Trade Union Alliance in UniCredit declare their Solidarity to Slovakian Workers and Trade Union

We've recently known that negotiations about the amendment to the Collective Agreement in UniCredit Bank in Slovakia went to ice.

The management has strongly opposed the right request of the unions to increase wages for the recovery of purchasing power and for the right recognition of the excellent results achieved by the Bank. Results that must be shared with all Workers !!!

On 9th October Slovakian Trade Unions asked for a strike alert but, till now, no progress in negotiation neither any reliable sigh from UniCredit to find a fair compromise.

We therefore we strongly give, as UniCredit EWC & TUA Members, our Solidarity and strongly ask UniCredit to change their attitude and return to a serene negotiation.

UniCredit European Works Council - Uni Finance - Trade Union Alliance Unicredit
